**GET A COPY OF YOUR LINKEDIN DATA & DESIGN INTERACTIVE DASHBOARD USING POWER BI**  
**50 MARKS.**

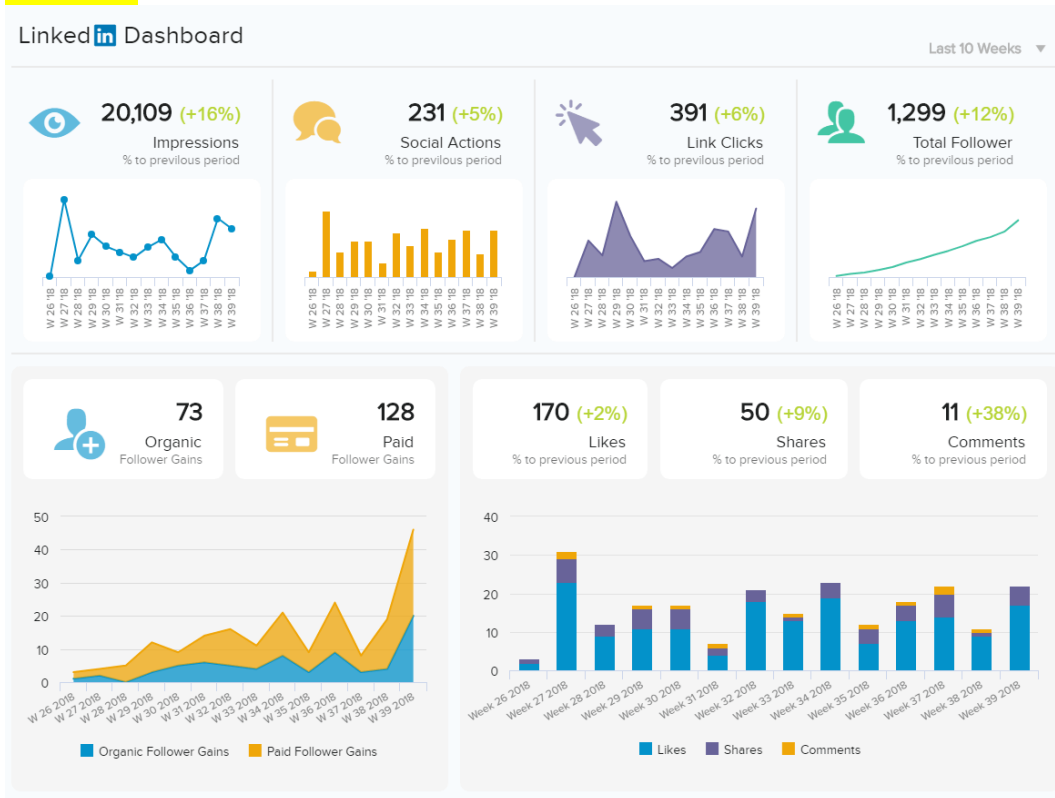

6. Wait for 24Hrs for it to get generated and you can always come back and check. Usually it is done in 2Hrs so keep checking that or you will get an email stating the copy of your data as a CSV format or EXCEL format
7. Once You have the dataset ready, load it in the POWERBI and design your LINKEDIN PROFILE DASHBOARD and drive meaningful insights out of it. Your dashboard should clearly show JOBS APPLIED too and other sections as relevant to your profile. Need complete ANALYTICS information and insights.
8. Observe the below sample LINKEDIN ANALYTICS for reference and use your creativity to create something extraordinary.
9. Feel free to add CALCULATED COLUMNS, MEASURES & DIFFERENT CHARTs
10. Share it on your LinkedIn and tag @me , @sudhanshu sir and @krish naik sir @ineuron too and give the relevant hashtags
11. Top 3 will get some goodies from the iNeuron
